

Click on "save"

Click on "save", then try to access the help for SAP Library from the "Help" menu

Caveat:

We can also customize the path for SAP Library Help by creating a text file named [System]:\WINDOWS\sapdoccd.ini

Then create this parameter into that file: [HTMLHELP]

HelpType=HtmlHelpFile

HtmlHelpFilePath=C:\Data Zainul\SAP Library\EN

Save the file.
