

## Material Master Field Selection Attribute

In a screen and I want to change the field status of a particular field, how to do that?

For ex) I'm in MK01 (creating a vendor) and I want to make the address mandatory, so where to go to make this mandatory? Or if I want to suppress it, where to go.

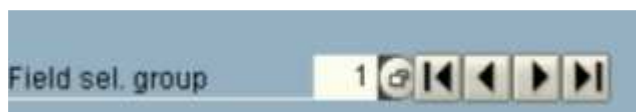

There must be a screen to go to make each field Suppressed, Mandatory, Optional or Hidden.

You can hide/display/mandatory/optional any field using this procedure.

You can also define your field groups and make those fields as mandatory fields, path for this is:

You need to get the field name of the field you want to hide or display or .... this you can get by pressing F1 and the technical info and after that go to **SPRO** → **Logistics General** → **Material Master** → **Field Selection** → and double click on **Assign Fields to Field Selection Group** and there you click Position button and paste your field name there and search and there you can see for which field selection group this field belongs too, now come back to SPRO and there select the second one Maintain field selection for data screens and then double click and give your field selection Group

and based on the type of the material i.e. type of material like FERT, ROH for which you want to configure double click on that material type i.e under field reference, if you want that whole fields to be hidden/optional/ select in this screen else double click on the material type or Field selection and then it will take you to a screen which shows all the fields under that group, then you can select what ever option you need.

Field selection (Field selection group 1)

Field ref.		Hide	Display	Reqd entry	Opt. entry
0001		<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
0002		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
A		<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
C		<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
CAD		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
DIEN		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
E		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
F		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
FERT		<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
